

1x8 Single-Mode LGX Splitter

Description:

FIBERONE® 1x8 LGX single-mode optical splitters / couplers are a “double-wide” module and is designed for use in a variety of rack and wall mount patch panels. They are well-suited for distributed fiber networks and come complete with custom options to meet specific networks requirements.

Features:

- High Directivity
- Bi-Directional
- Low Insertion Loss
- Excellent Uniformity

Specifications:

Dimensions	L: 5 in. x W: 2.25 in. x H: 5.2 in.
Wavelength	1310 & 1550 nm +/- 40
Reflectance	> - 55 dB
Uniformity	0.69 dB (Max)
Directivity	- 55 dB
PDL	0.25 dB
Temperature Coefficient	0.003 dB / °C
Operating Temperature	- 40 to + 65 °C
Insertion Loss (Max)	10.8
