

The U-Series® Universal Connectivity System provides a space-saving and operator-friendly solution to high-density fiber networks. The patented Universal Fiber Cassette provides an integrated patch and splice solution in a compact design. The bend radius-limiting track on the top cover allows the cassette to telescope forward, providing simplified access to the adapters and connectors while maintaining network operation and integrity.

The industry's first removable front U-Guard secures and protects the front connectors while managing the subgroup of jumpers separately from those in adjacent cassettes, thus simplifying fiber jumper management and access. The hinged-top cover allows for access to the splicing area and fiber storage in the underside of the top cover and bend radius-limiting track in the base. The unit comes complete with factory-installed fiber pigtailed, and fusion splice sleeves, which simplifies network installation.

### Specifications:

<b>Part Numbers</b>	UFC-12-SCA; UFC-12-SCU; UFC-12-LCA; UFC-12-LCU
<b>Dimensions</b>	H: .80 in. W: 7.88 in. D: 8.13 in.
<b>Construction</b>	Polycarbonate
<b>Weight</b>	8 oz.
<b>Fiber &amp; Connector Capacity</b>	Twelve (12)
<b>Provided Accessories</b>	Connectorized fiber pigtailed, adapters, fusion splice sleeves, cable ties, labels

### Who We Are:

FIBERONE® builds products that are solid and flexible, supporting a wide range of configurations, densities, and connector options. We engineer them with excellence and manufacture them to perfection, right here in the U.S.A.

Since 2000, we've focused on serving you, the customer. Dedication to service is why we continue to grow in a very competitive market and have become a leading supplier of network solutions for operators throughout the country from our headquarters in East Syracuse, New York.
