

The FIBERONE® U-Series® patented Universal Fiber Cassette gives you a clear view of operations and makes jumper management simple.

The translucent and compact design shows everything you need to see inside and out. Built-in slack storage and the telescoping feature put jumpers at your fingertips while securing the network fibers. The dust-resistant U-Guard keeps connections clean and organized.

Limited rack space doesn't have to mean longer maintenance and installation time. The U-Series FCS from FIBERONE is your solution for simplified network performance and labor cost savings.

Patented telescoping technology

Removable U-Guard organizes and protects jumpers

Built-in slack storage keeps fibers neat and manageable

Variety of chassis fits up to 288 fibers in 1/3 the space of traditional LGX

## Who We Are:

FIBERONE® builds products that are solid and flexible, supporting a wide range of configurations, densities, and connector options. We engineer them with excellence and manufacture them to perfection, right here in the U.S.A.

Since 2000, we've focused on serving you, the customer. Dedication to service is why we continue to grow in a very competitive market and have become a leading supplier of network solutions for operators throughout the country from our headquarters in East Syracuse, New York.
