

FST-1050 : 72 Port Rack Mount Splice & Patch Panel

Description:

The FST-1050 provides a flexible and durable solution for rack mount fiber terminations. Capable of splicing and terminating 72 fibers in a 19" or 23" rack. Available splice trays are easily assembled and accessed from the front of the panel. Fiber routing clips are included for optimal fiber management and interconnect. Each unit accepts up to twelve, six-position plug in adapter panels and six, 12-fiber splice trays. Typical applications for the FST-1050 include situations where outside plant or riser cables are spliced and terminated on the back of the connector panels.
