

## FST-350 : 36 Port Rack Mount Splice & Patch Panel

### Description:

Designed for small installations, the FST-350 rack mount splice and patch panel features 36 single ports and is capable of splicing and terminating up to 36 or 72 fibers. This durable 16-gauge steel panel stands 2U (3.5") high and accommodates either a 19" or 23" rack mount.

Unit features a removable top and rear cover along with a slide-out tray that enables easy access to the three, standard 6-pack adapter panels or modules. This, in combination with both top and back cable entry ports, makes installation, operation and maintenance simple. The adapters modules can be made custom to accommodate SC, FC, LC or ST connectors or can be left blank. The FST-350 patch panel can accommodate up to three splice trays available with either pre-terminated "stub" cables or fiber pigtailed.

### Features:

- 2U High
- Reversible 19" or 23" Rack Mount
- Splice & Terminate up to 36 Fibers
- Available in Beige or Black
- Easy Front & Rear Access
- Sliding Tray & Removable Cover
