

FST-48W : 48 Port Wall Mount Splice & Patch Panel

Description:

The 48-port wall mount patch panel offered by FIBERONE® is capable of both terminating and splicing up to 48 or 96 fibers, depending on connector style. The durable steel construction, neutral cabinet finish and small profile of this series make it compatible with any customer premise or other interior environments. The panel provides double door convenience with separate lockable trunk cable compartment. Top and bottom cable entry ports provide easy entry for various network applications. Typical use of the panel include situations where outside plant or riser cables are terminated in to the back of the connector panel or splice tray.

Features:

- Wall Mount
- Separate Lockable Trunk Cable Compartment
- Double Front Door
- Splice & Terminate up to 48 Fibers
- Top & Bottom Cable Entry Ports
